LOCTECH LM3914 ANY CURRENT VIN (AS OF JAN. have questions. how do I create an IC LM3914 component in multisim?. any help on what comparators and buffer should be used (along with model number)? can you find the parts list for this chip that include a model number. May 13, 2014 Hi, can anyone please help me out with the LM3914 chip.I'm trying to make sure that my component is accurate to what I have below. If my calculations are wrong, how do I account for what I have below? I believe i have this right:. I want to understand my component data, and make sure what I use is authentic to the parts shown below. Any help would be appreciated, thanks Aug 30, 2016 Intel LM3914 Pin Function 〼 Current Output 〼 VIN. Lm3914 Ni Multisim Serial Number ⚓. No items have been added yet! Related Collections. A: The LM3914 is a PNP transistor: pin 1 on the top is the emitter, pin 2 is the collector, pin 3 the base, and pin 4 the sub Collector or backgate. Here is a version with all four pins in schematic form (BINARY JUNCTION SCHEMATICS). Unfortunately it appears that the original circuit does not pin all four pins to 0V. It appears to have some voltage differential between the pins, as shown in the bottom right diagram, so the LM3914 will not work as an open collector transistor. It could be that this form of the LM3914 is a poor design that was made in under time and design constraints. You need to check your part you bought and find out whether it is spec'd to do this. { "action": { "error": { "variety": ["Misdelivery"], "vector": ["Carelessness"] 3da54e8ca3
